MEDICINE STUDIES

**CMS EDUCATION MISSION**

# ABOUT US

The [Cannabinoid Medicine Studies](#) offers certification courses that are overseen by our partnered physician and CMO, Adam Abodeely, (MD, MBA, FACS, FASCRS) to provide specialization and continuing education platforms for its CBDIA members, CBD industry and medical professionals.

As the CBD industry continues to grow, there are many evolving complexities that require strategic know-how and the most up-to-date knowledge on the nuisances of the industry to get ahead. Our courses offer the key essentials to prepare the CBD industry to take on these demands to be able to help their clients and patients reach their goals.

All of the CMS Certification curriculum is physician or PhD written and taught....Currently we offer 15 courses, which empower CBD professionals to become experts in various aspects of the medicinal and therapeutic uses of the cannabis plant.

# INSTRUCTORS

## **DR. ADAM ABODEELY, M.D., MBA, FACS, FASCRS**

*Course: Certified CBD Consultant, Accredited CBD Specialist and Certified Flavonoid Specialist*  
*Position: ReserveMD*

Realizing the benefits of cannabis for patients with cancer and inflammatory bowel disease, Dr. Adam Abodeely, MD, MBA, FACS, FASCRS expanded his medical cannabis practice to include patients with a variety of medical ailments. Dedicated to advancing the science and education of cannabinoid-based therapies, he has a special interest in formulating products that capture the unique benefits of cannabinoids, terpenes and other natural ingredients to provide optimal synergy and interaction with the human endocannabinoid system.

## **GODFREY PEARLSON, M.D.**

*Course: Certified CBD Pain Management Consultant*  
*Position: Olin Neuropsychiatry Research Center*

Godfrey Pearlson completed his medical degree at Newcastle on Tyne University in the UK and a graduate philosophy degree at Columbia University in New York City. He then trained in psychiatry and was subsequently a psychiatry professor at Johns Hopkins University. He is currently professor of Psychiatry and Neuroscience at Yale University and is the founding director of the Olin Neuropsychiatry Research Center, a brain research facility at the Institute of Living in Connecticut, where he is also the Institute's research director. He is co-founder of the annual BrainDance competition for high school and college students across New England. These competitive awards encourage students to gain knowledge about psychiatric diseases and to develop a more tolerant and realistic perspective towards people with severe psychiatric problems. Dr. Pearlson was awarded the 2015 Stanley Dean Award for Schizophrenia Research from the American College of Psychiatrists, in 2015 was inducted into the Johns Hopkins Society of Scholars (distinguished alumni) and in 2019 received the Research Mentorship Award from the American Psychiatric Association. He is also a certified Master Gardener in the state of CT, a member of the Board of Physicians that advises the Connecticut Department of Public Health on appropriate use of medical marijuana, and chair of the neuroscience committee for the Research Society on Marijuana.

He has published over 700 peer-reviewed scientific articles and his marijuana research is funded by the National Institute on Drug Abuse and the National Highway Traffic Safety Administration. Dr. Pearlson is an expert in the fields of marijuana and of psychosis. He believes that any political platforms regarding cannabis should be based on scientific facts rather than emotion.

# INSTRUCTORS

## **JAMES SCHWARTZ, RN, MSN**

*Course: Cannabinoid Sports Specialist*

*Position: Cascade High, CEO*

James Schwartz BSN, LNC, is an experienced medical legal consultant and CEO of Cascade High Organics with 20 years experience cultivating legal cannabis. James is a self-described organic minimalist cultivating in the most sustainable manner. James believes in clean Cannabis and its use as a wellness drug. His Oregon licensed cultivation has been featured in Dope Magazine, Oregon Leaf Magazine, and has articles in both publications as well. James is a former member of NCIA Cultivation Committee and has presented at multiple Cannabis and CBD conferences all over the country. James was a drafter and is a signature on the written testimony to the FDA and congress on behalf of NCIA for CBD policy. His business, legal, medical, and agricultural knowledge provides a comprehensive perspective on the cannabis industry. James has lobbied for Cannabis on both the national and state level with Oregon Cannabis Association and is a fierce advocate for the plant and cannabinoid therapeutics.

## **MEET DR. SUSAN TRAPP, PH.D.**

*Creator / Instructor, Cannabinoid Medicine Studies*

### **DR. SUSAN TRAPP, PH.D.**

*Course: Accredited Terpene Specialist*

*Position: EndoSyn*

In general, my career has specialized in biotechnology, genomics and some computational biology. In graduate school and postdoc I researched the molecular evolution of natural products utilizing Terpenes (Terpenoids) as a model for study. My graduate work was focused on studying the horizontal gene transfer of the biosynthetic pathway of a terpene called trichothecenes, a toxic compound produced by a fungus that cause contamination to wheat crops. My postdoc research investigated the first gene in the pathway of many terpenes the terpene synthase and performed a comparative study of terpene synthases across a number of plants that sequence information was available for during that time. Susan is interested in utilizing her background in terpene and genomics to lead the way for precision medicine (sometimes called personalized medicine) in the cannabis industry. Aka utilizing genomics to predict how individuals will respond to various cannabinoids and terpene treatments and combinations.

EndoSyn is a pioneering start-up in the Endocannabinoid system (ECS) space. We are creating innovative nutraceutical products inspired by our own biology (the ECS). We are harnessing a proprietary AI metabolic engineering platform to rapidly biosynthesize endocannabinoids for the benefit of human health and wellness.

# INSTRUCTORS

## **KELLI HALE, MBA**

*Course: Certified CBD Skincare Consultant*

*Position: Nature's Hemp Spa*

Kelli Hale has been formulating and marketing original eco-luxury natural skincare and makeup since 2004. Building brands, products, and seeing them flourish with powerhouse natural and organic ingredients is a lifelong passion of hers. Kelli has reformulated high demand products from her lines with organic CBD ingredients for a new product line called Nature's Hemp Spa. Kelli is also a CBD education consultant who has been inside learning and performance for over 20 years, winning various industry awards for both small and large global companies. Kelli has a Bachelor of Science from Southern Methodist University as well as an MBA from the University of Aberystwyth, Wales.

## **HARRY RESIN, MASTER GROWER**

*Course: Certified Organic Hemp Cultivation Consultant*

*Position: Ecoland Biosciences*

Harry Resin has been in the cannabis business for the last seventeen years. He started off working with the coffee-shops in Amsterdam supplying them with high quality cannabis flowers. Soon after he moved into hash production as more and more medical users turned to cannabis as a form of medicine and required a stronger product than the flowers. After three years of growing and making hash he started a medical cannabis seed company called Delta-9 Labs. He was a partner in the seed company for six years overseeing the creation of many different strains used by medical patients all over the world. At the same time he began writing for various different cannabis magazines such as High Times, Skunk, and Weed World. He also wrote regularly for a prestigious cannabis medical journal. In this capacity he covered many topics ranging from the effects of Anandamide (a known neurotransmitter created by THC) on the mind to topics ranging from the medical cannabis situation in The Netherlands and breeding for medical potency to state some examples. After leaving Delta-9 Labs he started another seed company called The Harvestman and won several different global cannabis awards including the Cannabis Cup in Amsterdam. He has also been a 'Celebrity judge' for several different cannabis cup events around the world. Currently he is on the masthead of High Times as a contributor and has a column on their website.

# INSTRUCTORS

## **BOB HOBAN, ESQ.**

*Course: Cannabinoid Legal Administration Professional*

*Position: Hoban Law Group*

Bob Hoban sits at the center of the world's largest commercial cannabis industry network; a cannabis industry ecosystem that he has painstakingly cultivated since 2008. Since the cannabis industry became commercialized, he has been widely credited for creating the class of lawyers now known as "cannabis attorneys." He is known for the tremendous value that he places in his relationships and is not satisfied unless he can help his business clients thrive in this burgeoning global industry; an industry he has played a significant role in establishing. Bob has earned a reputation as a cannabis industry dealmaker representing start-ups, entrepreneurs, and companies in all stages of development. Mr. Hoban has truly transcended the practice of law and is regularly involved in assembling and structuring large scale cannabis industry M&A transactions. Above all else, Bob is a cannabis industry expert.

Beginning in 2008, he deliberately constructed the Hoban Law Group (HLG) to become the world's leading full-service commercial cannabis industry law firm; the first of its kind. Since that time, HLG has indeed become the world's leading cannabis industry law firm, with offices in seventeen states and ten nations abroad, and over fifty attorneys who specialize in all aspects of the commercial practice surrounding the cannabis industry. For nearly ten years, HLG has represented the cannabis industry's titans in every aspect of the commercial cannabis industry around the world. And he is largely responsible for the establishment and growth of the CBD industry due to his legal strategies, litigation matters, and policy efforts executed on behalf of HLG clients.

From 2010-2016, Bob served as one of the Nation's first cannabis policy instructors at the University of Denver, where he regularly lectured regarding cannabis topics (government regulations, public policy, and research-based policy courses), and where he led a University-sanctioned research practicum concerning the efficacy of marijuana regulation; the first of its kind in the U.S. He then taught several international travel courses concerning the emergence of the global cannabis industry. Because of this academic background, Bob has been asked to work with dozens of governments across the U.S., Asia, the E.U., and Latin America (over thirty different countries) on crafting their commercial cannabis public policy solutions (legislation and regulations). And he has served on a variety of national, state, and local task forces related to cannabis policy issues. He has consistently been recognized as one of the most influential people in the global cannabis industry by a variety of organizations and publications over the course of the past ten-plus years. Since 2013, Bob has achieved the Martindale-Hubbell AV Preeminent Peer Review Rating, awarded to only those lawyers with the highest ethical standards and professional ability. He was recently named a "Cannabis Law Trailblazer" by the National Law Journal, and he has been consistently recognized as one of "Denver's Top Cannabis Lawyers" for nearly a decade.

Bob frequently appears in media coverage as a legal expert on cannabis and has been a keynote speaker at dozens of cannabis events around the world. He has conducted hundreds of interviews regarding marijuana policy for international, national, state, and local media outlets. Major media outlets like the New York Times, the Los Angeles Times, Chicago Tribune, CNN, Rolling Stone, Forbes, VICE, MSNBC, and Bloomberg all have called on Bob for his unique perspective on the cannabis industry.

# INSTRUCTORS

## **GARRETT GRAFF, ESQ.**

*Course: Cannabinoid Legal Administration Professional*

*Position: Hoban Law Group*

Garrett specializes in the representation of both the marijuana and industrial hemp industries. Garrett's practice involves corporate and M&A, real estate, regulatory/compliance, FDA/FTC compliance, intellectual property protection, and civil and commercial litigation. Garrett regularly counsels clients regarding corporate formation and structuring, M&A and business and real property assets, various corporate agreements, regulatory compliance as well as resolving and/or litigating commercial disputes. Related to marijuana businesses, Garrett represents numerous companies on matters including licensure, successfully obtaining licenses in numerous states in both competitive and non-competitive licensure processes. He also assists clients in general corporate matters, protecting intellectual property, establishing partnerships and joint ventures, and expanding clients' footprints across multiples states and/or countries, along with regulatory compliance matters.

As to industrial hemp businesses, Garrett represents companies across the country and world on matters including import/export, cultivation, processing and manufacturing, distribution, and navigating legislative and regulatory frameworks such as FDA regulation. He frequently works with federal, state and local authorities on policy and enforcement matters. Notably, Garrett represented hemp industry stakeholders against the DEA, before the Ninth Circuit Court of Appeals, in confirming the Farm Bill's hemp provisions pre-empt DEA authority and the CSA. He also regularly works with stakeholders in drafting model legislative and regulatory policy. Garrett also serves on the board of the Colorado chapter of the Hemp Industries Association. Garrett has testified in judicial proceedings related to hemp regulatory matters and frequently speaks in many forums — conferences, symposiums, and other events — regarding various issues concerning marijuana and industrial hemp law.

Garrett and his wife, Anna, live in Denver. In their free time, they enjoy hiking, skiing, sporting events, reading and traveling.

## **DR. COHIN KAKAR, PHARM D.**

*Course: Certified Cannabinoid Blending Formulator*

*Position: The Anthos Group*

Dr. Cohin Kakar comes from a background in the pharmaceutical industry, working with various Fortune 150 companies in roles ranging from clinical trial management to global medical affairs for over 10 years. Most notably, Dr. Kakar served on the medical launch teams for some of the biggest commercial drugs globally, with a specialty in inflammation and immunology. Lastly, Dr. Kakar is a published author in Oncology and Cannabis with more publications underway.

## **MARK HERRICK, ESQ.**

*Course: Accredited CBD Compliance Consultant*

*Position: Herrick & Herrick*

Mark Herrick holds a J.D. and an MBA from the University of San Diego and has been practicing law in California for over 25 years. Mr. Herrick has been a legal counsel for both small and large firms. He is an expert on the vast majority of legal issues a small to moderate sized business might face. Over the past five years he has been in private practice and represented many clients in the CBD industry, including this CBD Expo. His work with the CBD Expo and with many other CBD clients has focused on the protection of their intellectual property. He is also an expert on legal issues that are unique to CBD businesses that arise in such areas as contracts, liability, business licensing, and banking. Mr. Herrick is also operating as an escrow officer for many deals for the purchase of Hemp, CBD isolate and various other CBD commodities.

# INSTRUCTORS

## **DR. BECKY LYNN, M.D., MBA, IF, NCMP**

*Course: Certified Phytocannabinoid Women's Health Specialist*

*Position: Evora Center for Menopause and Women's Health*

Dr. Becky Kaufman Lynn is the Director of the Evora Center for Menopause and Sexual Health. She is a board certified gynecologist, and a trained Sexual Counselor and Menopause Provider. She is also an Adjunct Associate Professor of Obstetrics and Gynecology at Saint Louis University School of Medicine.

Dr. Lynn is a world-renowned expert in sexual medicine and menopause. She is a frequent invited speaker on women's sexual health and appears regularly on numerous podcasts, television shows, radio shows, and in print. Known for her patient/partner education YouTube channel, and her research on the effects of cannabis on the sexual experience, she has been featured in MORE magazine, SELF magazine and Martha Stewart Living.

Dr. Lynn is an International Fellow of the International Society for the Study of Women's Sexual Health (ISSWSH), where she serves as the advocacy chairman and a member of the Board. She is the Immediate Past President of the St. Louis Gynecologic Society and on the Advocacy Committee of the North American Menopause Society.

## **DR. JOHN MACKAY, PH.D.**

*Course: A Day with MacKay: The Cannabinoid Extraction Accreditation*

*Position: Synergistic Technologies*

John A. MacKay earned his B.A. in Chemistry at St. Lawrence University. He also earned his Ph.D. at the University of Vermont, where he focused on Inorganic Chemistry and on the synthesis of cancer-fighting compounds. After working in teaching positions at the University of Vermont, Lyndon State College, and Davidson College, John went on to join Wasters Corporation in 1893.

## CERTIFIED CBD CONSULTANT™

The CBD industry is booming and needs your help to continue to grow. But, as a new vertical, there are many evolving complexities that require strategic know-how and the most up-to-date knowledge on the nuances of the industry to get ahead. This course offers the key essentials to prepare you to take on these demands and help your client reach their goals.

Whether you are a medical professional, CBD company, consultant, or looking to break into the CBD industry in a big and meaningful way, this course will provide you the most recent and valuable information to help lead clients to success.

The **Certified CBD Consultant (CCBDC)** credential shows that you have the skills to work with clients and patients today—and entertain the research of tomorrow. You'll gain the confidence to tailor CBD into basic health and wellness programs.

## CERTIFIED MINOR PHYTOCANNABINOID SPECIALIST™

This course will cover three of the up and coming minor phytocannabinoids—CBG, CBN, and CBC—and educate you on their therapeutic effects. Phytocannabinoid specialists are formulators, practitioners, researchers, and professionals with the knowledge to design and implement custom programs for patients, custom formulations, or other applications of phytocannabinoid medicine. The **Certified Minor Phytocannabinoid Specialist (CMPS)** credential will make you a recognized expert of phytocannabinoids. Earning this certification demonstrates advanced skill and professional distinction.

## ACCREDITED TERPENE SPECIALIST™

With such a large array of terpenes, many of which can also be found in other plants, this course offers the in-depth knowledge required to contribute to this fascinating, and growing, niche in cannabis. The **Accredited Terpene Specialist (ATS)** credential makes you a recognized expert of terpenes and their health benefits and applications. Earning this certification demonstrates advanced skill and professional distinction.

## CERTIFIED FLAVONOID SPECIALIST™

The **Certified Flavonoid Specialist (CFS)** credential will give you the expertise in the newly explored world of cannabis flavonoids, their health benefits and the ability to entertain the research of tomorrow. Flavonoid Specialists are formulators, practitioners and professionals with the knowledge to design and implement custom formulations, programs and other applications of Flavonoids. Earning this certification demonstrates advanced skills and professional distinction.

## CANNABINOID SPORTS SPECIALIST™

## CERTIFIED CANNABINOID BLENDING FORMULATOR™

## A DAY WITH MACKAY: THE CANNABINOID EXTRACTION™

## CERTIFIED CBD PAIN MANAGEMENT CONSULTANT™

The **Cannabinoid Sports Specialist (CSS)** credential will give expert knowledge into the research and development of the ongoing study into the role cannabinoids can play within sports science. From increased performance to heightened recovery, cannabinoids are proving to show exciting possibilities in aiding athletes and active folks alike.

A Cannabinoid Sports Specialist will possess the knowledge, insight, and ability to implement different cannabinoids into varying sports-related applications and stands to solidify themselves in a solid professional position as cannabinoids become more widely accepted in both professional and amateur sports through treatments, training and functional applications.

Cannabinoids are the chemical components of the cannabis plant that provide a vast array of benefits. The **Certified Cannabinoid Blending Formulator (CCBF)** credential provides the knowledge for you to design custom cannabinoid blends for health, wellness, and product creation. An in-depth understanding of the function and benefits of individual cannabinoids alongside the intriguing possibilities when blended together is the substance of this certification that will provide a key advantage to cannabinoid progress.

### In A Day with MacKay: The Cannabinoid Extraction

Certification you will receive an overview of the principles and practices of CBD extraction. The many hands on demonstrations this certification offers you will leave with an understanding of how coffee, hemp, and clothes are similar chemically and in production. You will appreciate the vast number of ways to make eggs, tea, and even cake and how you can increase your productivity with hemp and cannabis extraction. You will gain an understanding of measuring the potency at each stage of sample preparation, extraction and post-processing; possibly saving your extraction operation thousands of dollars a week.

The **Certified Flavonoid Specialist (CFS)** credential will give you the expertise in the newly explored world of cannabis flavonoids, their health benefits and the ability to entertain the research of tomorrow. Flavonoid Specialists are formulators, practitioners and professionals with the knowledge to design and implement custom formulations, programs and other applications of Flavonoids. Earning this certification demonstrates advanced skills and professional distinction.

# CERTIFIED PHYTOCANNABINOID NUTRITION & METABOLISM SPECIALIST™

# CERTIFIED CANNABINOID SENIOR CARE SPECIALIST™

# CERTIFIED CBD SKINCARE CONSULTANT™

# ACCREDITED CBD COMPLIANCE CONSULTANT™

The health benefits of CBD abound, but those with the knowledge to properly apply the cannabinoid for specified use are few and far between. The **Certified Phytocannabinoid Nutritional & Metabolism Specialist** course provides participants with the understanding and expertise to meet the growing interest in the many ways CBD can aide and assist the body from the inside out. Taking elements of holistic health and incorporating innovative science, the skills and knowledge gained through this course enable you to directly apply the power of CBD to any health practice – existing or to be established. Understanding the role metabolism and nutrition play in overall health is a crucial to any wellness practitioner’s arsenal. Combining this with industry leading knowledge of the application and interaction of CBD right alongside will secure your success in a field with endless potential.

The world of CBD is ever expanding and with this increased availability of products and the benefits they can provide comes a need for specialized focus in the industry. The **Cannabinoid Senior Care Specialist** credential is a 2-hour, physician taught course focused on how cannabinoids can assist with the needs of seniors in a variety of interesting and substantial ways. Learn cutting-edge research into the field of cannabinoids and directly apply this knowledge towards senior care. The valuable and progressive skills and understanding provided within this course will allow another line of care to ensure the health and happiness of the older generation.

Become a key player and qualified expert in the exciting and quickly growing realm of CBD skincare products with the **Certified CBD Skincare Consultant** Certification. This course will take an in-depth look at all angles of this section of the industry from the most popular benefits offered by CBD skin care products to the vast potential for market growth that is on the near horizon. Learn which types of CBD skincare products are expected to increase in popularity in success over the next few years and gain a thorough understanding of the current market structure and where it is headed. Participants will also learn the ins and outs of starting their own CBD skincare line including considerations such as formulas, packaging and labeling, modes of distribution, and pricing. The world of CBD skincare is bright and full of potential and this course offers a chance to secure your shot a success within it.

As the CBD industry grows, so does the need for the knowledge and skills to comply with any and all regulations surrounding it. The **CBD Compliance Consultant** credential will provide an in depth look at the steps and processes needed to get any CBD company in line with compliance procedures and protocols as required by the FDA and other governing bodies. This 8-hour course will highlight each phase of CBD compliance and equip you with the necessary skills to become a sought after consultant who is able provide this in need service and knowledge to any growing or existing CBD company.

## CERTIFIED ORGANIC HEMP CONSULTANT™

Hemp is a hot commodity and broad legalization has assured a long-term continued upward trend. It has never been more enticing to enter the ranks of hemp production and the **Certified Organic Hemp Cultivation Consultant** course is designed to provide a working knowledge of critical practices and methods to help a crop reach its full potential.

Participants will learn productive organic growing methods for both indoor and outdoor applications. Key factors in the growing process will also be examined such as soil prep and testing, seed selection, nutrients for optimal growth, and pest control.

The course will also weigh the benefits of growing hemp for flower versus fiber and dive into the process of each plant growth stage to help maximize yields. Perfect for anyone looking to improve their current production operation or learn vital skills necessary to have immediate impact as a consultant, this course will provide a working foundation for fields of plenty.

## CERTIFIED PHYTOCANNABINOID WOMEN'S HEALTH SPECIALIST™

The rise of new and effective treatments in women's health is an ongoing need for many around the world. Phytocannabinoids, the beneficial compounds found within the cannabis plant, are proving to be an intriguing avenue that can aid a variety of conditions and issues specific to women.

The **Certified Phytocannabinoid Women's Health Specialist** Course will examine and highlight the exciting potential that this growing field of study is demonstrating. Taught by Dr. Becky Lynn, a board certified gynecologist and sexual counselor who specializes in women's sexual health, gynecologic care, and menopause, this course offers expert insight into a number of women's health concerns and how phytocannabinoids can be used to assist. Participants will gain practical knowledge as well as look into future applications while positioning themselves as specialists in a growing and in-demand niche within the health, wellness, and cannabinoid industries.

## CANNABINOID LEGAL ADMINISTRATION PROFESSIONAL™

A growing industry encounters obstacles along the way and the world of cannabis is not without its hurdles. Even with widespread acceptance and mainstream legalization, rules and regulations still abound. The **Cannabinoid Legal Administration Professional** course will give you the tools needed to navigate the ongoing development of key legal matters within the industry. Participants will gain vast knowledge and in-depth understanding into these matters at a state and federal level as well as become equipped with the skills to navigate regulations with compliance and continued progress in mind. From paperwork to best practices and every pressing legal matter along the way, the course will afford individuals a crucial skill-set that will enable immediate success as an independent legal consultant or as a vital piece of an established enterprise.
